Module Completeness (%)

- Terpenoid backbone biosynthesis
- Serine and threonine metabolism
- Polyamine biosynthesis
- Other carbohydrate metabolism
- Lipid metabolism
  - Cofactor and vitamin metabolism
- Central carbohydrate metabolism
- Carbon fixation
- Aromatic amino acid metabolism
- Cysteine and methionine metabolism

Arginine and proline metabolism

- Methane metabolism
- ATP synthesis
- Lipopolysaccharide metabolism
- Purine metabolism
- Histidine metabolism
- Nitrogen metabolism
- Drug resistance

case protein.translations.faa.ko
